Remarks on the arrest:

It is proven to us for being ULTIMA RATIO by the DeepState to make a lawyer betray its client, whom the DeepState wants to bring to fall, like in this case of the HANSE INTERNATIONAL organization.

It has become obvious that this mandate of founding HANSE INTERNATIONAL GROUP COMPANY LIMITED BANGKOK THAILAND was just and only obtained for a large-scale fraud, as it is clear that the DeepState used Kasikornbank's and the family Lamsam's influence in Thailand, for arranging two at a maximum hidden big money flows originally owned by the HANSE INTERNATIONAL organization, as these were billed in the year 2022 by their Van Tulp Consulting Legal division for its accounts in Thailand at 1. Kasikornbank (Bangkok Thailand) and 2. at UOB (United Overseas Bank Singapore in Bangkok Thailand), being:

1. EUR 357,000,000,000.00 (Billion)
2. EUR 350,000,000,000,000.00 (Trillion)

It was the point of time our legal division decided to come to Thailand and to stay in Thailand (DEC2022), for deep root investigation.

The HANSE Organization's purpose has been always to gift these monies as shown under 1. As investment for the USA to the fraudulently by the Deepstate (Terror Act) taken **HANSE US company NOATUN NMS LLC (Registration Number: 5874912 EIN Number: 35-2712451)**, 2. to the people (Germany and USA). In the case of no. 2 to the people of the USA:

- **USD \$100,000.00 in CASH to every US American citizen**
- **USD \$ 1 million to every US American citizen to their hardship / safe heaven account (PQA Private Q-Collateral Account see <https://www.vantulp.eu/en-us/pqa/>)**
